

ALVI ZUMAELA IZDIANA

BACHELOR OF INFORMATION TECHNOLOGY

+62 888-0684-8668

ALFIIZDIANA@GMAIL.COM

[PORTFOLIO](#)

SLEMAN, YOGYAKARTA

OVERVIEW

Highly analytical and **results-driven** individual passionate about transforming raw data into actionable insights. As an aspiring **Data Analyst**, I bring proven experience in **data processing** (cleaning and transform), **impactful visualization** using **Python, Tableau, Excel**, and **Data Storytelling**. My strong foundation in **web system development** with further enhances my ability to understand data architecture and contribute to making me adept at bridging the gap between data-driven strategy and practical implementation.

I am a **fast learner**, **highly adaptable**, and **committed to continuous improvement**, always **eager to explore new opportunities** that leverage my analytical and development skills within the broader tech landscape.

EDUCATION

2021 – 2025

Bachelor of Information Technology

Universitas 'Aisyiyah Yogyakarta

GPA 3.80

WORK EXPERIENCE

Aug 2023 – Dec 2023

IT Instructor (Internship)

Dinas Komunikasi dan Informatika Kota Surabaya

- Instruct on utilization of diverse Office productivity Software, including MS Office, WPS, and Google Workspace Tools.
- Instruct on processing numerical data using spreadsheet software such as MS Excel, Google Sheets, and WPS Excel.
- Monitored BLC operations while ensuring accuracy of visitor data entry.
- Developed web-based system for pretest and posttest using CodeIgniter 3 Framework and MySQL database for final project.

Tools: Office productivity software, Codeigniter 3, MySQL

PROJECT EXPERIENCE

- **Data Analyst:** creating web-based interactive data visualization with Dash (Plotly) to analyze employee data and find patterns related to factors that influence employee performance, satisfaction, and resignation decisions.

- **Data Analyst:** processing and analyzing public dataset related to HIV/AIDS data with Python (Pandas) and visualizing with matplotlib and Seaborn, then analyzing the results displayed in the Confusion Matrix.
- **Data Analyst:** processing and analyzing public dataset about E-Commerce B2B Sales, processing the data with Microsoft Excel, then create the visualization and do analyzing in Tableau. You can access the Data visualization [here](#).
- **Web / Software Development:** developed a web-based expert system for early detection of Students' mental health disorder with CodeIgniter 4, MySQL, and forward chaining method for BLP (Biro Layanan Psikologi) UNISA Yogyakarta, I achieved a 100% test accuracy verified by expert review.
- **Web / Software Development:** developed a web-based expert system for the early detection of depressive disorders with the Forward Chaining algorithm and interactive dashboard using AJAX to dynamically refresh data without page reloading.
- **Web / Software Development:** developed an Android-based system with Kotlin programming language for calculating BMR (Basal Metabolic Rate) based on height, weight, age, and gender.
- **Lecturer research:** contributed to the preparation of the dataset for MP-ASI menu recommendation system that adopts Computer Vision technology with YOLOv5.
- **Lecturer research:** contributed to the preparation of the dataset for Prediction of preeclampsia risk based on clinical data in pregnant women using an Explainable Artificial Intelligence (XAI) approach.
- **Journal Proceeding:** *"Implementasi Case-Based Reasoning untuk Diagnosis Gangguan Tumbuh Kembang Anak dengan Metode Block City"*.

ADDITIONAL EXPERIENCE

Chairman of the Capture the Flag 2023 Competition

March 2024

Held By PSTI Unisa Yogyakarta

- Developed timeline and work schedule for competition committee in conjunction with Event Division.
- Establish budget and fund allocation strategies with the entire committee.
- Oversee event preparation, guaranteeing all elements align with established plans.
- Facilitate communication between committees and relevant parties to ensure seamless event execution.
- Perform evaluation post-event to identify successes and challenges requiring attention.

Skills: Leadership, time management, problem solving, project planning and coordination, teamwork

Co. Publication, Decoration, and Documentation Division

June 2023

Held By PSTI Unisa Yogyakarta (for 6th Anniversary)

- Responsible for creating informative content for the 6th Anniversary Event.
- Build communication among team members in executing respective duties, ensuring they work according to their job descriptions.
- Developed promotional content, documentation, and materials for post-event dissemination.

Skills: Leadership, project planning and coordination, teamwork

ADDITIONAL INFORMATION

- **LANGUAGE:** Indonesia (native), Jawa krama (native), English (intermediate).
- **TECHNICAL SKILL**

Data analysis and visualization: Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly), Tableau, MySQL, SQLite, PhpMyAdmin, Excel, Google Sheets

Web/Software development: PHP Framework (CodeIgniter, Laravel), AJAX, JavaScript, React.js, Vue.js, CSS, Tailwindcss, HTML, UI/UX Design (Figma), Kotlin,

Others: Draw.io (for documentation), UML Diagram (Activity, Flowchart, Use-Case), Notion

- **SOFT SKILL**

- Analytical and critical thinking
- Attention to detail
- Creativity
- Discipline
- Fast learner
- Like to learn something new
- Teamwork
- Problem solving
- Project planning and coordination
- Time management

COURSE & CERTIFICATION

- Information Technology Service Management – BNSP
- R for Data Professional – Part I at DQLab
- Data Visualization in Data Science using R at DQLab
- Data Preparation in Data Science using R at DQLab
- Data Science in Retail: Market Basket Analysis at DQLab
- Analisis Data COVID19 di Indonesia at DQLab
- Project: Eksplorasi Data Ritel Menggunakan R at DQLab
- Pengenalan Data Warehouse, ETL, dan Business Intelligence at DQLab
- Python for Data Science, AI and Development at Coursera
- Technical Support Fundamentals at Coursera
- System Administration and IT Infrastructure Services at Coursera
